U. S. PUBLIC LAW 92-500 AS AMENDED AND SECTION 62.1-44.2  
ET SEQ OF THE CODE OF VIRGINIA AS AMENDED.**

The municipal, industrial or private facility owners on the attached list have applied for issuance, reissuance or amendment of a permit to either discharge treated wastes into the waters of the Commonwealth of Virginia (VPDES); handle waste and wastewater in a manner that does not involve discharging to a sewage treatment works or to state waters (VPA); or withdraw surface water, impound non-agricultural waters or impact surface waters such as by land clearing, dredging, filling, excavating, draining, or ditching in open water, streams, and wetlands (VWP).

On the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Quality (DEQ) proposes to issue/reissue/amend/terminate the permit(s) subject to certain limitations and special conditions. These proposed determinations are tentative.

#### **PROCEDURES FOR FORMULATION OF FINAL DETERMINATIONS**

Persons may comment in writing to the DEQ on the proposed permit within 30 days from the date of newspaper public notice. Comments shall include address and phone number of the writer, and shall contain a complete, concise statement of the factual basis for the comments. Only those comments received within this period will be

considered by the DEQ. The DEQ may, upon request or upon its own motion, decide to hold a public hearing if it determines that public response is significant. As of September 1, 1985, the mailing notice will be informational only and is considered to be confirmation of newspaper notices and not the official notice for comments.

All pertinent information is on file and may be inspected and arrangements made for copying at the Regional Office having jurisdiction as indicated in the first column of the attached list:

Thank you.

Public Notice – Environmental Permit

PURPOSE OF NOTICE: To seek public comment on a draft permit from the Department of Environmental Quality that will allow the release of treated wastewater into a water body in Loudoun County, Virginia.

PUBLIC COMMENT PERIOD: November 29, 2012 to 5:00 p.m. on December 28, 2012

PERMIT NAME: Virginia Pollutant Discharge Elimination System Permit – Wastewater issued by DEQ, under the authority of the State Water Control Board

APPLICANT NAME, ADDRESS AND PERMIT NUMBER: Gurcharan S. Lail  
14425 James Monroe Highway  
Leesburg, VA 20175  
VA0074934

NAME AND ADDRESS OF FACILITY: One Stop Trailer Park  
14425 James Monroe Highway  
Leesburg, VA 20175

PROJECT DESCRIPTION: Gurcharan S. Lail has applied for a reissuance of a permit for the private One Stop Trailer Park. The applicant proposes to release treated sewage wastewaters from residential areas and a convenience store/gas station at a rate of 0.0062 million gallons per day into a water body. Sludge from the treatment process will be transported to the Broad Run Water Reclamation Facility (VA0091383) for further treatment and disposal. The facility proposes to release the treated sewage in the Clarks Run in Loudoun County in the Potomac River watershed. A watershed is the land area drained by a river and its incoming streams. The permit will limit the following pollutants to amounts that protect water quality: pH, Biochemical Oxygen Demand, Total Suspended Solids, Ammonia as N, Oil & Grease, E. coli and Chlorine.

HOW TO COMMENT AND/OR REQUEST A PUBLIC HEARING: DEQ accepts comments and requests for public hearing by e-mail, fax or postal mail. All comments and requests must be in writing and be received by DEQ during the comment period. Submittals must include the names, mailing addresses and telephone numbers of the commenter/requester and of all persons represented by the commenter/requester. A request for public hearing must also include: 1) The reason why a public hearing is requested. 2) A brief, informal statement regarding the nature and extent of the interest of the requester or of those represented by the requester, including how and to what extent such interest would be directly and adversely affected by the permit. 3) Specific references, where possible, to terms and conditions of the permit with suggested revisions. A public hearing may be held, including another comment period, if public response is significant, based on individual requests for a public hearing, and there are substantial, disputed issues relevant to the permit.

CONTACT FOR PUBLIC COMMENTS, DOCUMENT REQUESTS AND ADDITIONAL INFORMATION: The public may review the documents at the DEQ-Northern Regional Office by appointment or may request electronic copies of the draft permit and fact sheet.

Re: VPDES Permit No. VA0074934

Dear Mr. Lail:

The State Water Control Board is considering reissuing the referenced permit. Please review the enclosed public notice and draft permit package carefully.

Certain public notice procedures must be complied with before the actual permit can be approved. They are as follows:

- 1) The attached public notice must be published once a week for two consecutive weeks in a newspaper of general local circulation. We have your signed billing information form and intend to contact the newspaper the week of 25 November 2012 to begin the public notice.
- 2) A minimum of 30 days will be allowed for public response following the date of the first public notice. If no public response is received, or the public response can be satisfactorily answered, then the permit will be processed. However, if there is significant response, then we may hold a public hearing. You will be advised if this occurs.

In order for you to continue to discharge under state and federal laws, a new permit must be issued by the expiration date of the current permit. The term of the current permit cannot be extended beyond its expiration date if the owner is the cause of the delay in permit reissuance.

Please contact me at 703-583-3873 or via email at [Douglas.Frasier@deq.virginia.gov](mailto:Douglas.Frasier@deq.virginia.gov) if you have questions or comments on the draft permit, fact sheet or public notice requirements.

Dear Mr. Faha:

Re: Municipal VPDES Permit Application for Existing Discharge (VA0074934) to Clarks  
Run – One Stop Trailer Park

We have reviewed the above referenced information to determine the impact on public drinking water supplies.

Note that several public water supply wells are proximate to the discharge, including wells at Hiway MHP (two wells), One Stop Trailer Park, and Lucketts Elementary School. The local public water supply wells are in karst and may be impacted by this activity. A former well at the Lucketts Community Center was impacted by coliform contamination. We recommend a Reliability Class II for the facility.

If you have any questions, please let me know.

Re: VPDES Permit No. VA0074934, One Stop Trailer Park, Loudoun County

Dear Mr. Lail:

This letter is to remind you that your VPDES permit will expire on 3 January 2013. If you wish to continue discharging, you must reapply for the permit. The State Water Control Board's VPDES Permit Regulation requires that we receive a complete application at least 180 days before the existing permit expires. The deadline for submitting the application is 3 July 2012. Early submissions are encouraged and will better enable us to complete processing before permit expiration. The application forms and instructions are available on the DEQ website at: <http://www.deq.virginia.gov/vpdes/permitfees.html>. Based on your current permit, your facility is required to submit the following forms:

- EPA Form 2A;
- VPDES Permit Application Addendum;
- Public Notice Billing Information Form; and
- VPDES Sewage Sludge Permit Application Form.

Please note that DEQ and EPA will no longer accept waiver requests from the sampling or testing requirements in the application forms. You shall complete all applicable sections of the application. If you have performed testing during the permit term, i.e. toxicity monitoring, those sampling events can be used to satisfy the application testing requirements as long as the sampling was conducted within 4 1/2 years of permit expiration.

Upon completing the application, return the original and an electronic copy to the Northern Regional Office at the above address.

There is no application fee for a regularly scheduled reissuance of an individual permit; that fee has been replaced by an annual permit maintenance fee which is to be paid by October 1 of each year. No permit will be reissued unless all maintenance fee payments are up to date.

DEQ has launched an eDMR program that allows you to submit effluent data electronically. We expect every permittee to use eDMR as permits are reissued and exceptions will only be allowed on a case by case basis. There are many benefits to both DEQ and the permittee when eDMR is utilized for submissions:

1. Fewer revisions for data since the eDMR program automatically flags omissions before the data is submitted;
2. Cost savings on postage, copying and paper;
3. No concerns about using the most current DMR – eDMR refreshes the required parameters automatically when changes are needed;
4. Submittals can be made on a timelier basis; and
5. Electronic signatures from multiple people are allowed and eDMR can be accessed from multiple computer locations.

The following website provides details <http://www.deq.virginia.gov/water/edmrfaq.html> and our regional eDMR administrator, Becky Vice at [rebecca.vice@deq.virginia.gov](mailto:rebecca.vice@deq.virginia.gov) or (703) 583-3922 can also assist you.

Please contact me at (703) 583-3873 or via email at [Douglas.Frasier@deq.virginia.gov](mailto:Douglas.Frasier@deq.virginia.gov) if you have questions.

Respectfully,

Douglas Frasier
